Born to Devassy and Alia at Moolans Tharavad, Angamaly, Varghese Sebastian, commonly known as Varghese Moolan had his Education at St. Joseph's High School, Angamaly; Pre Degree with Second Group, at Sacred Heart College, Thevara, Cochin; and graduated in Zoology, Botany and Chemistry from Sree Sankara College, at Kalady under Kerala University.

He was the college basket-ball captain of Sree Sankara College during the years 1976-77. He was the Ernakulam District Secretary of All India Catholic University Federation (AICUF) for two consecutive years during 1976 & 1977.

During the campus period, he wrote two novels: the first one "Thekku" (manual pumping of water) got the third place in the Mammen Mappila Award competition, and the second novel "Erimalayilorbhayaam" ('taking refuge in a burning volcano') got the fifth grade in the Kumkumam Award competition. He also used to write articles in various contemporary publications.

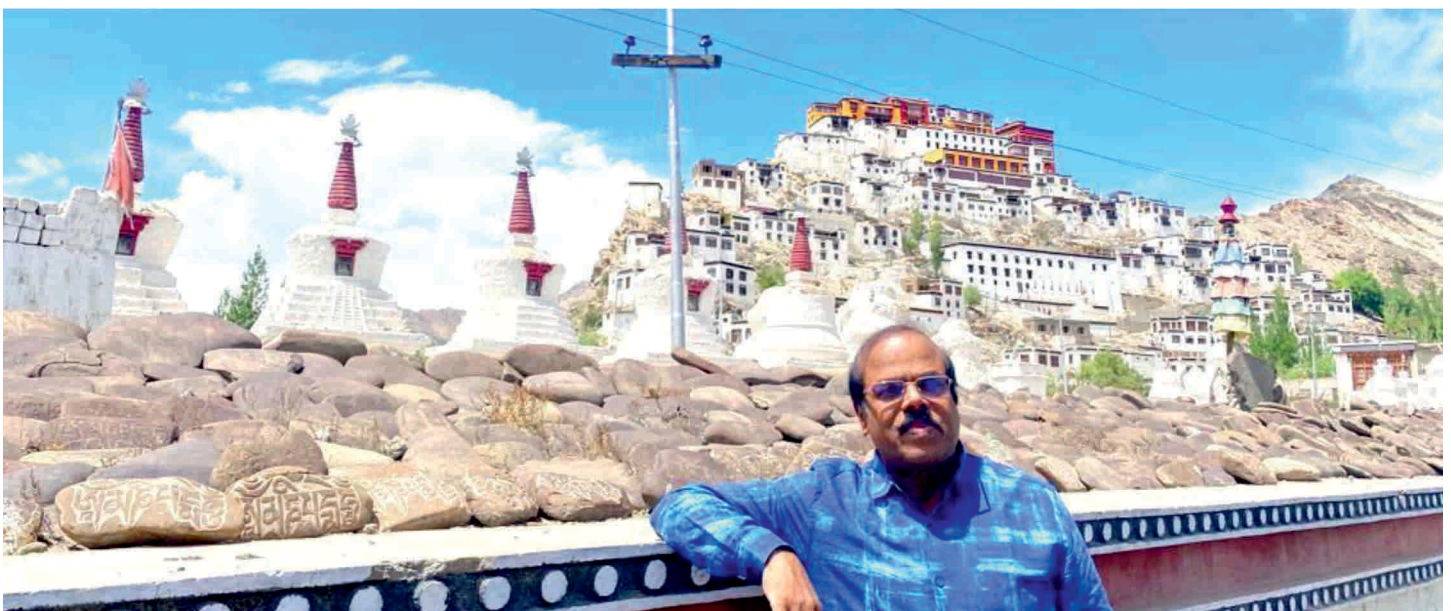

After Graduation, Varghese got employed in the leading News paper, Indian Express Group in Madras, Tamilnadu. Later he got employed as the Country Manager of Santul India Company, an original automobile spare parts manufacturing company, in New Delhi, with its factory at Aligarh, U.P.

International “Golden Book Award-2025” was awarded to Varghese Moolan (Earlier Awarded to Sadguru & Dalai Lama)

At the main Buddhist altar at Hemis Gompa (Budhist Monastery) in Lei

Hemis Gompa (Budhist Monastery, Lei), near Indus river where Jesus is believed to be a Monk, 2000 years ago

He had to travel extensively across all states and main cities of India in connection with automobile parts marketing, which helped him a lot to realize the real status of Indian villages and could merge with the diverse Great Cultures and beliefs of the Great Indian subcontinent.

During his travels to Kashmir, Varghese used to visit the tomb at Rauza Bal, Khanyar, in Old Srinagar, where Jesus is believed to have been buried after a long normal life in Kashmir.

Varghese also lived a Buddhist monastic life for nearly 2 months in the “Hemis monastery” (Hemis Gompa) in Ladakh, where, as per ancient Buddhist records, Jesus Christ had lived a Monastic life, from his teen age of 13th (Buddhist Calendar year 555) till he was 24 years old, and Jesus is believed to have been later traveling in the ancient Buddhist and Vedic spiritual centers in all of North India radiating spiritual energy.

Varghese used to write articles in the leading publications like times of India, Indian Express and Manorama Sunday Supplements under the pen names of 'Anuranj' and 'Niranjker'. He was also an incessant student of the Vedic Literature and culture and the gradual evolution thru various laps of History.

Moolans Family - 1967

During 1980 Varghese made an Anthropological exploration among “Savara” aboriginals in 'Gondwana' Sector, (situated on the joint borders of Bengal, Bihar and Orissa states) by staying among them for nearly 2 months. Thus he presented an anthropological thesis namely, “some of the fourth grade citizens of our nation.” which was published in Manorama News paper in 9 chapters.

The Moolans

www.themoolans.com

During 1981 Varghese migrated to Saudi Arabia under employment, as the manager of Al-Saleh Group.

Moolans Family -2000

Later he started a supermarket in the name and style “VIJAY Supermarket” at Al-khobar, Saudi Arabia during 1985, named after his new born son Vijay.

Later he started a grocery packing unit and distribution network for spices, curry powders, groceries, Philippine and Thai foods in Saudi Arabia during 1986 in partnership with his sponsor Eng. Khalid Saud Al-Saleh, who was instrumental in establishing Varghese Moolans Group, with his financial support.

At that time, the quality and standard of Indian spices and food products available in the Middle East Markets were so sub-standard that even Indians preferred the products of other countries especially Pakistani products.

Moolans Family -2016

Consequently Varghese started a factory in India during 1987 and started manufacturing and exporting spices and groceries under the brand “VIJAY”, named after his son.

Arab Business Partners

Khalid Al-Saleh

Awda M. Al-Zahrani

Khalid Hadi Al-Marri

Regularly adding more products to the product list; increasing frequency in shipments exported overseas; expanding sales areas and penetrating into more countries in the distribution of products under the brand names of VIJAY, JAY, ROMA, MOOLANS, BUTTERFLY, ELITE etc, Varghese Moolans Group has eventually reached out to more than two dozen countries of the world in marketing.

This was achieved by striking marketing agreements with Mr. Awda Mohd. Al-Zahrani and Mr. Khalid Hadi Al-Marri to develop the distribution network all over Middle East.

"Vijay Super Market" - Saudi Arabia - 1985

Spices & Foods

Delivery Trucks in Saudi Arabia

Launching of the “VIJAY & JAY” brands Launching in Dubai, by Cinestars R. Madhavan & Bhavana

By the implementation of incessant and rigorous marketing strategies like persistence of quality, adoption of international standards in packing, and timely distribution of quality products, along with other measures, comprehensively opted by Varghese, reversed the International negative trend towards Indian Products.

And thus, during the middle of 1990s, the demand for Indian Products started to increase steadily. Thus Indians, Arabs and finally Pakistanis started consuming Indian Food Products. Alongside, Varghese also started Elite Super Market, Moolans Cold Storage and Nicee Studio and Colorlab in the Saudi Arabia.

Dr. Varghese Moolan is the first Indian to get the coveted “Saudi Investor license” (green card in Saudi Arabia) and the first Indian to become the member of the Saudi Chamber of Commerce during 2001.

Accordingly Varghese started the first 100% self-owned factory for manufacturing Spice products and Indian foods at Dammam, Saudi Arabia, under the name and style of “The House of Spices Factory Ltd,” at Dammam, Saudi Arabia.

Varghese is the first Indian to become the member of Saudi Arabian Chamber of Commerce.

During 1998, Varghese initiated the first of the Margin-free Super market chains in Kerala to regularize the rates of consumable items and to save the general public from exploitation.

Currently, there are one dozen retail and supermarket chains, under the names of Moolans Super Markets, Moolans Hyper Marts.etc, managed by him and 3 brothers.

During 2001 Varghese entered into the farming sector. He purchased dozens of acres of land in Palaghat district and started organic farming under the name and style of "Moolans Organic Gardens".

Thus many acres of Coconut trees, areca nut trees, gooseberry, Lemon plants, and other herbs are being grown. These products are used in manufacturing and exporting our food products.

Varghese has extensively travelled in the world, and visited more than 60 countries developing overseas markets of Vijay, Jay, Roma, Elite, Butterfly & other Moolans Group Products during the last 40 years, at the same time pursuing social encompassing among Indian Diaspora, under the umbrella of Global Malayalee Council.

Global Meet in Saudi Arabia

GLOBAL MALAYALEE COUNCIL

Lead by Ideology and Social Commitment, Dr. Varghese Moolan established the great 'Resident-Non-Resident organization' named "Global Malayalee Council", one of the leading NRI Organizations, during 1999, which is striving for the practical socio-economic development of India thru various aspects.

Vision:

A Full Fledged India with all Indians Proud to be called so.

MISSION:

Global Malayalee Council, the Leading Organization of Resident & non-resident Indians, strive for the comprehensive Socio-economic development of India thru the thrust areas of:

1. Business Enhancement
2. Educational Development
3. Health Awareness
4. Cultural Exchange
5. Social Welfare & Charity

DREAM:

Implant the seeds for a novel business and cultural revolution in India by the cooperation and meaningful dialogue between resident and non-resident Indians. Bridge the wide gap between resident and Non-resident-Indians to form a neutral pressure group in paving the way to a fully developed India, especially Kerala, counted among the Developed Nations.

Global Malayalee Council, Global Meet-2004 in India

Onam Festival Celebrated by Global Malayalee Council in Kerala

Donating ambulance to C. H. Charitable Trust

With representation in more than 24 countries, Global Malayalee Council has been very active globally in various fields upholding the activities mainly among the NRIs in the Middle East giving emphasis to the coordination of non-resident Indians with the residents.

All the biannual Global Meets in various countries were twined with these prospective, by including business meets, farmers' meets, exhibitions, cultural programs and charity projects.

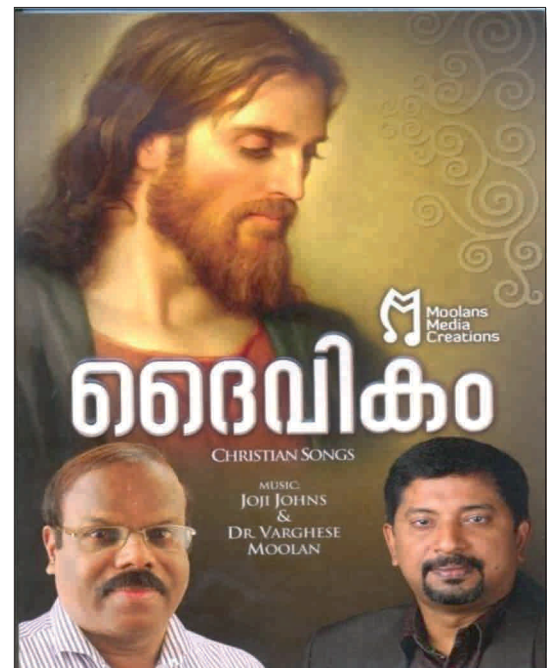

During Global Meets various charity projects like Kidney transplants, heart surgeries, medical camps, making homes for the homeless, offering 'blood money' to the deserving in the gulf, giving financial assistance to the poor etc., were carried out. Along with the organization's own charitable projects, GMC co-operates with various other relief projects, world-wide in co-ordination with other charitable societies..

Press Meet in New York

Celebrating in Sydney, Australia

Devotional Album by Varghese

Varghese is an experienced Piano Player. He has published a devotional Audio CD, named Deivikam, in which he himself wrote the lyrics and composed music for some of the songs.

Inauguration of Varghese Moolans Foundation

Cardinal George Alanchery Inaugurates "Touch-A-Heart", Heart Surgery Projects

With wife Margaret at an Overseas Program

VARGHESE MOOLANS FOUNDATION

Varghese Moolans Group is owned by Dr. Varghese Moolan, his wife, children and grand children.

During 2010, Varghese Moolans Group initiated the Charity division under the name and style of "Varghese Moolans Foundation".

Varghese has two grandchildren, Shreya Kiran in Australia and Mantra Vijay Moolan in India, both studying in preschools.

**Dr. Varghese Moolan Presents
"Dimensional Progressive Theory" in British Parliament**

DIMENSIONAL PROGRESSIVE THEORY

Dr. Varghese Moolan presented the paper "Dimensional Progressive Theory" in British Parliament before a group of Elite scholars, from 58 countries, during Feb 2024.

The book "Dimensional Progressive Theory" written by Dr. Varghese Moolan won the Prestigious International "GOLDEN BOOK AWARD" which was early awarded to world famous thinkers like Dalai Lama and Sadguru.

The revolutionized scientific concepts of Quantum Conscious and panpsychism have been driving thru the quantum integers of boson-fermions, leading to the Nobel Prize winning theory of "Quantum Entanglement." As per the famous spiritual scientist, Nikolas Tesla, 'if you want to understand GOD, and universal mind, just think in terms of energy, vibration and frequencies'

The very existence of this visual cosmos is being created through "Quantum observation" by the "Cosmic conscious" (GOD); the phenomenon renowned as 'Big Bang.' As a result, the zero dimensional 'singularity' underwent spatial, drastic expansion to form this visual universe.

Though most of the spontaneously formed matter and antimatter mutually react and disappear from physicality, they leave behind a few percentage of matter in the form of bosons and fermions particles. Such quarks and anti-quarks together with gluons gradually developed into sub-atomic protons, neutrons and electrons which coaxed to formulate atoms, elements, molecules, hydrocarbons, amino acids; and from this primordial Protein soup formed RNA & DNA, thus evolved into microbial loop, and finally the organisms.

The physical evolution is always preceded by the conscious evolution which is ciphered as inherent information in all entities at the cell basis. Whereas single atoms get configured into higher atomic elements thru nuclear reactions and alchemy; single eukaryotic cells divide and self-align to form complex organisms thru mitosis and meiosis.

Thus, eukaryotes underwent the Cambrian explosion to evolve into Piscean, amphibian, mammalian, avian, and primate forms of life on earth. There is every possibility that similar liveliness exist in millions of super habitable planets in many galaxies in higher and lower dimensions where living beings deploy better energy manifestation and hence might be equipped with better technology, far ahead of human intellectual properties.

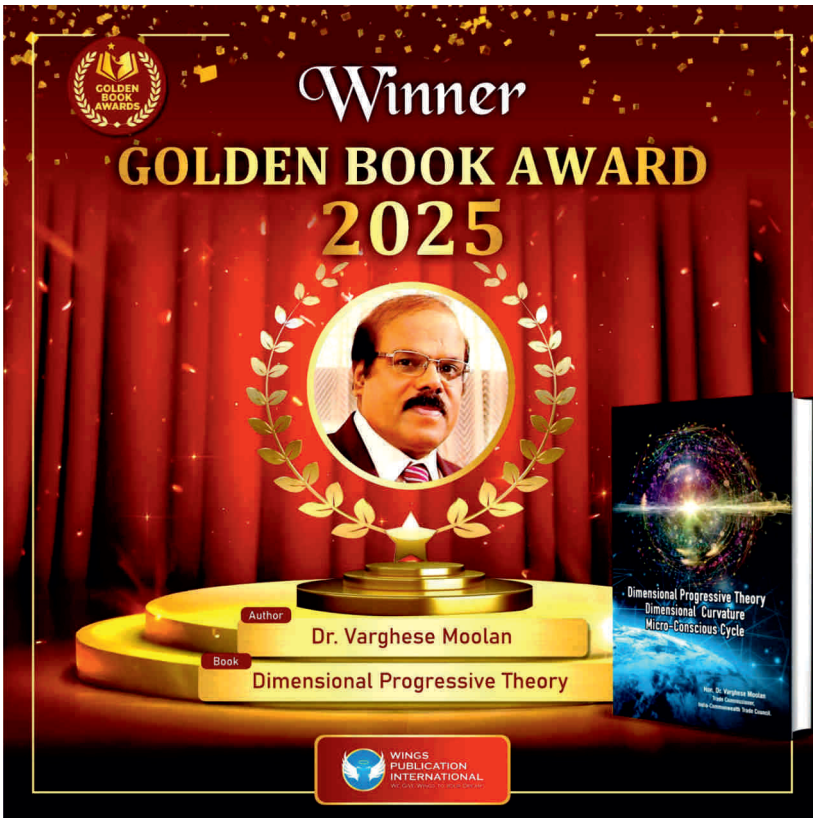

The final manifestation of conscious evolution prevailing in the multiverse is in the form of Dimensional Progress.

The zygote of the butterfly egg experiences zero dimensional awareness. When the egg breaks out into a larva, it walks on a wire rope with the awareness of a single dimension (length). But, as it enters the pupa stage, it gradually metamorphoses into a butterfly, adorned with beautiful wings to flutter around, experiencing the 3 spatial

The book cover features a central image of a glowing, multi-colored sphere with a grid of lines, set against a dark background with a blue horizon line. Text on the cover includes the title "Dimensional Progressive Theory: Dimensional Curvature" and a detailed synopsis. A small portrait of Dr. Varghese Moolan is in the top left corner.

**Hugged by the British MP after the presentation of
"Dimensional Progressive Theory" in British Parliament**

dimensions of Length, Width and Height.

Likewise, the human embryo being aware of just zero dimension (0-D), when incarnate to this physicality, starts to experience a tri-dimensional (3-D) world. But as his intellect develops, his consciousness gets engrossed in to non-spatial 4-dimensional (4-D) tesseract universe, with time as the 4th dimension. The concept of 4-D was postulated by the Great Scientist, Albert Einstein thru his famous theory of "time-space fabric"

As the physical body of a person grows up, the conscious also blooms along, energized by the alignable positive vibes available around and in the higher dimensions. During the death of a man, his "matured conscious" cuts across the horizons of time-space limitations by leaving his physical body behind and enters the 5th, 6th, or 7th dimensional plain in the spiritual realm.

Dimensions from 5-D to 10-D are a Calabi-Yau manifold where the unique degrees of freedom of the Bosons exist. Since human life forms contain bosons that interact with the Higgs field, we are also higher dimensional. The conscious of "dead" beings evolves to higher dimensional plains of 6-D, 7-D, 8-D, 9-D and finally merges with the absolute 10th dimensional plain of Cosmic Conscious, conceptualized as Heaven, Nirvana, Moksha etc. by various religions.

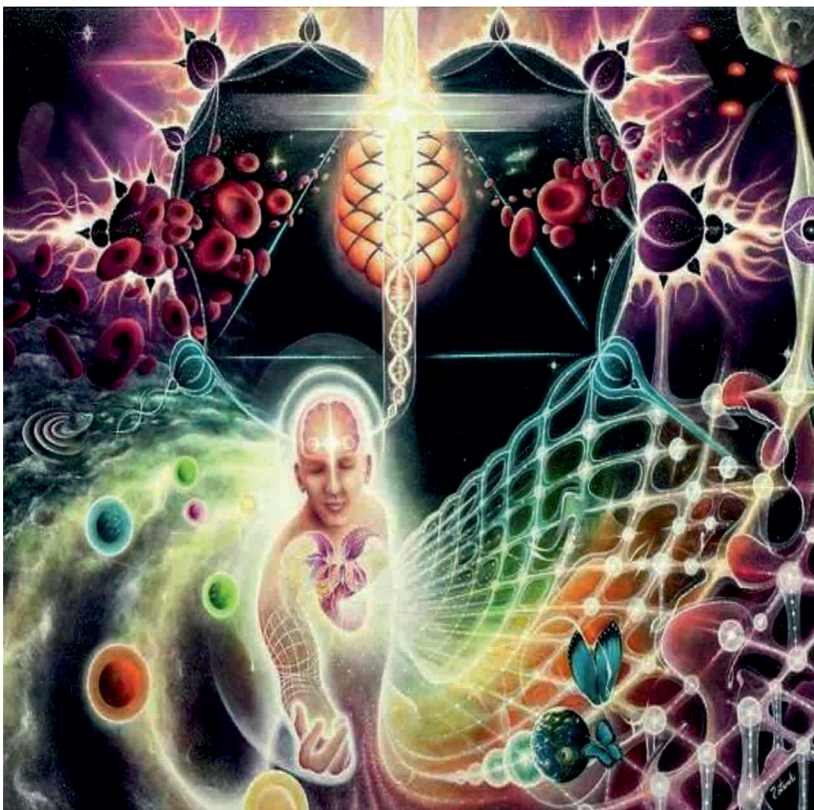

"Quantum loop theory", "Super String Theory", "Brane Theory" etc., have postulated the hypothesis of a 10 dimensional multiversality, which have been theoretically and mathematically proved by many scientists.

95% energy pervading this multi-level cosmos has been labeled as dark energy (68% dark energy and 27% dark matter); simply because of its non-physical manifestation in higher dimensions above the physicality of 4th dimension. Hence, the physical (4-D) instruments are incapable of detecting the existence of relevant higher cosmic energy plains.

But human brains are capable of perceiving across, until the 10th dimension of Divine Plain ("I AM WHO AM") whereas Enlightened beings like Mystics, Saints, Rishies, monks who are aware of "I AM," are capable of communicating with higher dimensional entities thru their sixth sense, the 'Third eye' (Pineal Gland). The Swiss 'Blue Brain Project' proved that Neural Networks within human brain can exhibit complex structures spanning up to 10 Dimensions.

Every living being is inner-engineered by subconscious to self evolve through the dimensional plains to perfection, utilizing environments affirmatively and by aligning with positive vibes available in the higher dimensions. This concept was basically postulated by Aristotle (BC300) thru his "Theory of Perfectionism".

The subconscious within, urges every living being to steadily and gradually evolve across the dimensional horizons, to merge finally with the pervasive, omnipotent, omniscient and absolute 'Cosmic Conscious'(GOD), in the 10th Dimension. This is the "Dimensional Progressive Theory" in a nutshell.

**'Homo Galactica' – Cosmic Conscious (GOD),
the ultimate merging goal of man**
